

## ACH Authorization Instructions

This document provides an overall view of ACH transactions and outlines the steps required to set up ACH instructions with SNAP for your use.

**It's Easy:** You can direct the SNAP Investor Support Services group to move funds from your SNAP account, utilizing the Automated Clearing House (ACH) system. An ACH request only requires one communication to the SNAP Investor Support Services group.

**It's Cost Effective:** ACH transactions are generally less expensive than wires, sometimes only a few cents versus a few dollars for a wire.

### • How to set up a local bank account for ACH Redemptions through SNAP:

You must pre-authorize SNAP to process ACH transactions to your specific local bank account. To pre-authorize SNAP, do the following:

1. Complete and forward the *ACH Setup* Form to the SNAP Investor Support Services group via fax at 1-888-535-0120.
2. Notify your local bank that SNAP will be crediting your account. If your account has an ACH filter on it, you will need to provide an authorization to your local bank to allow SNAP transactions.
